

SPRAVATO[™]

New Clinical Expertise

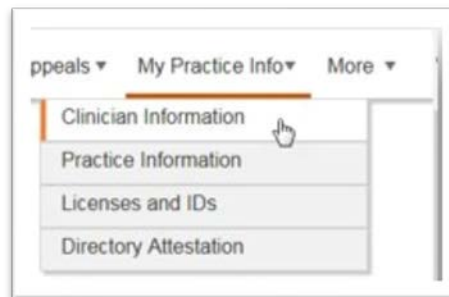

We are pleased to announce a new Clinical Expertise: SPRAVATO[™].

Spravato certified providers can now add this Clinical Expertise to their Optum profile. Having this expertise indicates that you are certified and currently willing to treat members with Spravato in your practice.

Full SPRAVATO[™] REMS (Risk Evaluation and Mitigation Strategy) requirements can be obtained at [SPRAVATOREMS.com](https://spravato.rems.com) or call 1-855-382-6022.

Once certified by REMS, prescribers can go to the secure area of providerexpress.com and add this Clinical Expertise to their profile. It is quick and easy.

After logging in go to the upper right corner “My Practice Info” and click on “Clinician Information”. In the “Areas of Clinical Expertise” section click and add “SPRAVATO[™]”.

Areas of Clinical Expertise

Please select all areas that you have clinical expertise and are currently willing to treat in your practice.

Available (215)		Selected (6)
<input type="text" value="Clinical Expertise"/>	<input type="button" value="Add >"/>	<input type="text" value="Clinical Expertise"/>
ASAM 0.5 Medicaid Early Intervention	<input type="button" value="< Remove"/>	Adoption Issues
ASAM 1.0 Medicaid Outpatient Services		Respite Care
ASAM 2.1 Medicaid Intensive Outpatient Services		Psych Testing
ASAM 2.5 Medicaid Partial Hospitalization		Fetal Alcohol Syndrome

Additional information:

1. Obtain prior authorization for the Spravato medication under the Pharmacy benefit by contacting [OptumRx](#) or by phone at 1-800-711-4555.
2. Check your Optum fee schedule to ensure that the Prolonged E&M codes (99354, 99355, 99415, 99416) are listed with rates so that you can be reimbursed for the service. If the codes are not present please reach out to your [Provider Relations Manager](#) or call the Optum Provider Service Line at 1-877-614-0484.
